## Giant Jacks Game Rental

*Includes: 12 giant jacks and 1 playground ball.*

**Players:** 1+

**Recommended Ages:** Any age able to understand the concept and follow the rules of the game.

**Object:** To be the player to have collected the most jacks by the end of the game.

**Setup:** Pile or scatter the jacks around the center of your play area. The player will be in the center of the play area. The game can be adjusted to control the pace and tempo by positioning jacks and students closer or further apart.

**How to Start:** A player starts in the middle of the play area and throws the included playground ball high up into the air.

**How to Play:** While the ball is in the air, the player races outside the middle of the play area to pick up a giant jack before running back to catch the ball, letting the ball bounce only once. If the ball bounces more than once, the player is fouled and their turn is over. The next player then takes a turn. All jacks are returned to the play area after each player's turn. The player who collects the most jacks while only letting the ball bounce once between giant jack pickups, wins!

**GiantJacks™ Video:** To see a video from the manufacturer showing how to play the game, please see the item listing on our website: <http://www.bigblueskyparty.com/giant-jacks-game-rental.html>
