## Giant Red Connect 4 Game Rental

*Includes: 21 yellow rings, 21 green rings, red game board & blue built-in ring holders.*

**Players:** 2 players or teams. If played with teams, teammates alternate turns.

**Recommended Ages:** 3+. Adult supervision required.

**Object:** To be the first player to get 4 of your rings in a row either vertically, horizontally or diagonally.

**Setup:** The game board will be set up for you on delivery. The rings will be stacked in the built-in ring holders, ready for you to use. Each player or team should stand with the game board between them.

**How to Start:** Each player or team chooses a color of rings they will play. Next, decide which player should go first. You may want to flip a coin to make this decision. The first player begins by dropping their ring into one of the columns through the top of the game board.

**How to Play:** The two players then alternate turns dropping one of their rings at a time into any unfilled column until one of them gets 4 rings in a row - either vertically, horizontally or diagonally. That player wins the game! If the rings are all used up before either player gets 4 in a row, then the game is a draw and the players can play again to determine a winner.

**How to Reset:** Pull out the red plastic release bar the bottom of the game board and all the rings will fall to the ground. Collect them and return them to the built-in ring holders to start a new round of fun!

**WARNING!** This game should only be used on a flat, even surface. Do not allow children to hang or climb on this game. Doing so may cause the game to tip over causing bodily harm or damage to property. If you need to move the assembled game, the game must be lifted by the legs by 2 people (one on each side).
