Giant White Connect 4 Game Rental

Includes: 21 red coins, 21 blue coins & white wood game board.

Players: 2 players or teams. If played with teams, teammates alternate turns.

Recommended Ages: 12+. Adult supervision required.

Object: To be the first player to get 4 of your coins in a row either vertically, horizontally or diagonally.

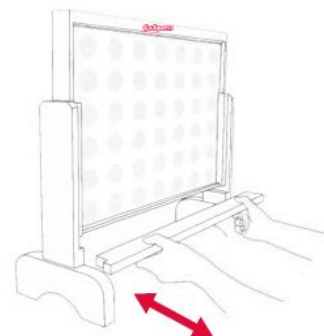

Setup: The game will be set up for you on delivery, ready for you to use. Each player or team should stand with the game board between them.

How to Start: Each player or team chooses a color of coins they will play. Next, decide which player should go first. You may want to flip a coin to make this decision. The first player begins by dropping their coin into one of the columns through the top of the game board.

How to Play: The two players then alternate turns dropping one of their coins at a time into any unfilled column until one of them gets 4 coins in a row - either vertically, horizontally or diagonally. That player wins the game! If the coins are all used up before either player gets 4 in a row, then the game is a draw and the players can play again to determine a winner.

How to Reset: Pull out the release bar at the bottom of the game board and all the coins will fall to the ground. Return the release bar to its place and collect the coins to start a new round of fun!

WARNING! This game should only be used on a flat, even surface. Do not allow children to hang or climb on this game. Doing so may cause the game to tip over causing bodily harm or damage to property. If you need to move the assembled game, the game must be lifted by the legs by 2 people (one on each side).
