Giant Yard Pong Game Rental

Includes: 12 giant red buckets and 2 heavy duty white plastic balls.

Players: Teams of 1-2 players each. **Recommended Ages:** None specified

Object: To be the team that eliminates all of the other team's buckets.

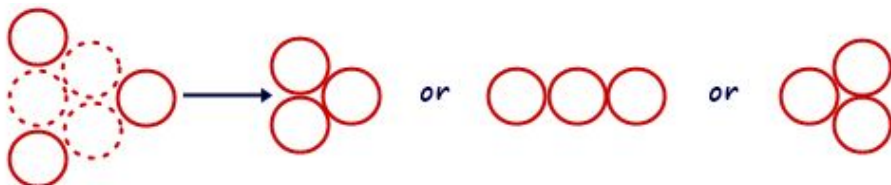

Setup: Games start with the below layout of buckets set up 15-25 feet apart based on skill level. Each bucket is filled approximately $\frac{1}{4}$ full with water, sand or anything to weigh them down.

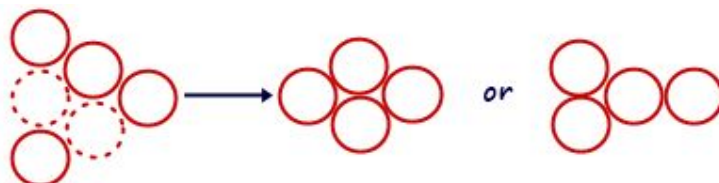

How to Start: Choose a player or team to go first. Each player from the beginning team throws once, trying to get the ball into the other team's buckets.

1. **If both players from the beginning team get a ball into different buckets**, the buckets are removed and the balls are returned to the beginning team to toss again.
2. **If both players from the beginning team get a ball into the same bucket**, the bucket is removed along with two other buckets and the balls are returned to the beginning team to toss again.
3. **If only one ball from the beginning team goes into a bucket**, then the bucket is removed and the next team tosses.

How to Play: Teams are allowed one re-rack of the other teams buckets per game. For example, Team 2 can have Team 1 rearrange their bucket configuration as shown below:

Or, as another example, Team 2 can have Team 1 rearrange their bucket configuration as shown below:

Winning the Game: Once a team eliminates all of the other team's buckets, they are the tentative winners and the other team gets rebuttal throws. Each player on the rebuttal team (the losing team) gets to throw until they miss.

1. **If the rebuttal team makes all of the remaining buckets**, the game goes into overtime. Overtime is played the same way as normal gameplay using only three buckets on each side.
2. **If the rebuttal team does not make all of the remaining buckets**, the tentative winners are now the actual winners.
